The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art on record does not show or fairly suggest:

Art Unit: 2816

a) An apparatus for determining a process of an integrated circuit including a multiplexer operably coupled to the at least one clock speed adjusting circuit and a delay circuit, wherein the multiplexer has a select delay input port for receiving a select delay signal such that the multiplexer generates a multiplexer output signal corresponding to at least one of an output signal generated by the at least one clock speed adjusting circuit and the delay timing signal, as called for in claims 1, 14, 15 and 20;

b) An apparatus for determining a processing speed of an integrated circuit including a logic gate coupled to a second flip-flop such that the logic gate receives a timing output signal and generates a timing indicator signal, as called for in claim 8;

c) An apparatus for determining a process of an integrated circuit including a pseudo-random input generator operably coupled to a first flip flop, such that the pseudo-random input generator generates the input signal, as called for in claim 9;

d) An apparatus for determining a process of an integrated circuit including a sequencer operably coupled to the multiplexer, such that the sequencer generates the select delay signal, as called for in claim 10;

e) An apparatus for determining a process of an integrated circuit further comprises a logic gate coupled to the second flip flop such that the logic gate receives the timing output signal and generates a timing indicator signal, as called for in claims 11 and 12;

f) A method for determining a process of an integrated circuit including step of comparing the output timing signal with a control timing signal, in combination with the remaining claimed limitations, as called for in claim 16; and

Art Unit: 2816

g) A method for determining a process of a plurality of integrated circuits including the steps of repeating steps of (b) through (d) until the processing speed of the integrated circuit is determined; and recording the processing speed of the integrated circuit, as called for in claim 23.

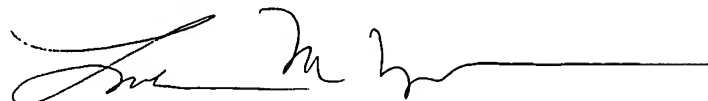

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
